

### KISAR Team 1 Instructions

1. Proceed from TP00 to TP04 (shown on map; 57.8457°N, -152.4296°W) and document the location (verify lat/lon, photograph waypoint placard, etc).
2. Proceed to Search Area 1. Conduct a critical-separation, line-abreast sweep search of Area 1 to locate TP05 (see image for positive ID). Document the location (record lat/lon, photograph waypoint placard, etc).

3. Proceed to TP06 (not shown on map) located at 57.8516°N, -152.4294°W. Document the location (verify lat/lon, photograph waypoint placard, etc).
4. Proceed to TP39 (not shown on map) located at 57.8513°N, -152.4243°W. Document the location (verify lat/lon, photograph waypoint placard, etc).
5. Proceed to Area 4 and await final rendezvous coordinates over VHF radio on SAR1 during normal comms schedule.
