

### KISAR Team 3 Instructions

1. Proceed from TP00 to TP19 (shown on map; 57.8529°N, -152.4104°W) and document the location (verify lat/lon, photograph waypoint placard, etc).
2. Proceed to TP15 (not shown on map) located at 57.8544°N, -152.4085°W. Document the location (verify lat/lon, photograph waypoint placard, etc).
3. Proceed to Search Area 3. Conduct a critical-separation, line-abreast sweep search of Area 3 to locate TP16 (see image for positive ID). Document the location (record lat/lon, photograph waypoint placard, etc).

4. Proceed to TP43 (not shown on map) located at 57.8509°N, -152.4020°W. Document the location (verify lat/lon, photograph waypoint placard, etc).
5. Proceed to Area 4 and await final rendezvous coordinates over VHF radio on SAR1 during normal comms schedule.
